## Our Week!

This week we celebrated Earth Day on Tuesday! We discussed what it means to reduce, reuse, and recycle. Students wrote about ways they can take care of the earth! We also learned about oviparous animals; animals that lay eggs! We read a great book (Chicken's Aren't the Only Ones) and the students were surprised about some of the animals that lay eggs!

We continue to work on number writing and formation in math. This also carries over to writing as students often rush when they write. We wrote narrative pieces about something we did over break and practiced proper letter formation and taking our time when we write!

Next week, we will begin our weather unit! ☺ Have a happy weekend!
